

## World Gone Sad Vs Who' s The MC

**Chorus-** Who' s The MC  
Styles MC x 4  
S.T.Y.L.E.S MC x 4

### Verse 1

- People always ask has the world gone sad  
No, I just think that the world's gone bad  
The rich get richer, now throw in a preacher  
and corruption of trade is a good pass wit the teacher  
The west are still victim to improper village practices  
Its getting cold in Africa so warm up ur mattresses  
and still Production's on the low, can't blame it all on Seoul  
Never mind a a beggin bowl, just roll round a stall
- Mines join factories in polluting the Ozone layer  
And more foreign investors seems to be the only prayer  
Now the weather still turning, forests still burning  
The fuel still burning, the weather's been turning  
floods, draughts, tsunamis n' hurricanes are everyday  
We just wait to see who floats up on the bay  
Which politicians will have there part to play  
We people still living this life come what may.

**Chorus-** Who' s The MC  
Styles MC x 4  
S.T.Y.L.E.S MC x 4

### Verse 2

- Who keeps the block rocking, the machine guns cocking  
the haters are cock blocking n' all the gals shockin'  
It' s Styles MC, oh what you don' t know me  
You must be another of those bastards that owe me  
You know the cat thats always so lonely  
Bumed out n' useless ever since they de-throned me  
but now its like i'm the one n' only  
bout to sign a big dollar deal with fat Tony  
no trouble it's on me, i' ll probably just loan me  
try n' get on sum TV, start my own Sony  
Still may have a bad knee, but were on like album 3  
Still i'm like/ on school T, so call it my 3rd degree  
still under BSE, ya blood that' s just you n' me  
throw in a Styles MC n' we got another 3  
this is like my army, for who dares to harm me  
don' t matter what i' m charging or whatever we' re farming

**Chorus x 2**
